

“ We are happy to wrap up 2023 and welcome the new year on a festive note at our service stations. Santa Claus made special stops, **spreading joy**, and **handing out gifts** to both young and old. It's our way of **celebrating** with the local community.

In line with our **commitment** to our **partners**, we are delighted to announce the renewal of the **Quartz Lubricants supply** agreement with SIDIA, NATCO, and Centradis, the exclusive agents of Peugeot, Citroën, and KIA cars in Lebanon.

Additionally, we ended the year with an initiative dear to our hearts: we **planted 200 trees** at *Horsh Beirut*, reinforcing our commitment to **society** and the **environment**. This initiative transforms the heart of our city by creating accessible green spaces for all Beirut citizens.

Adrien BÉCHONNET

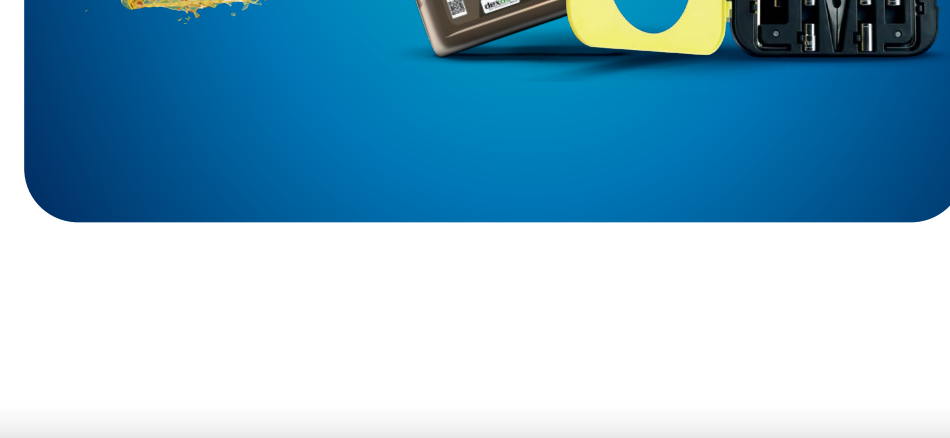

Managing Director and Country Chair, TotalEnergies Marketing Lebanon

🎆 **Happy reading & Happy New Year!** 🎆

The gifting season continues with TotalEnergies!

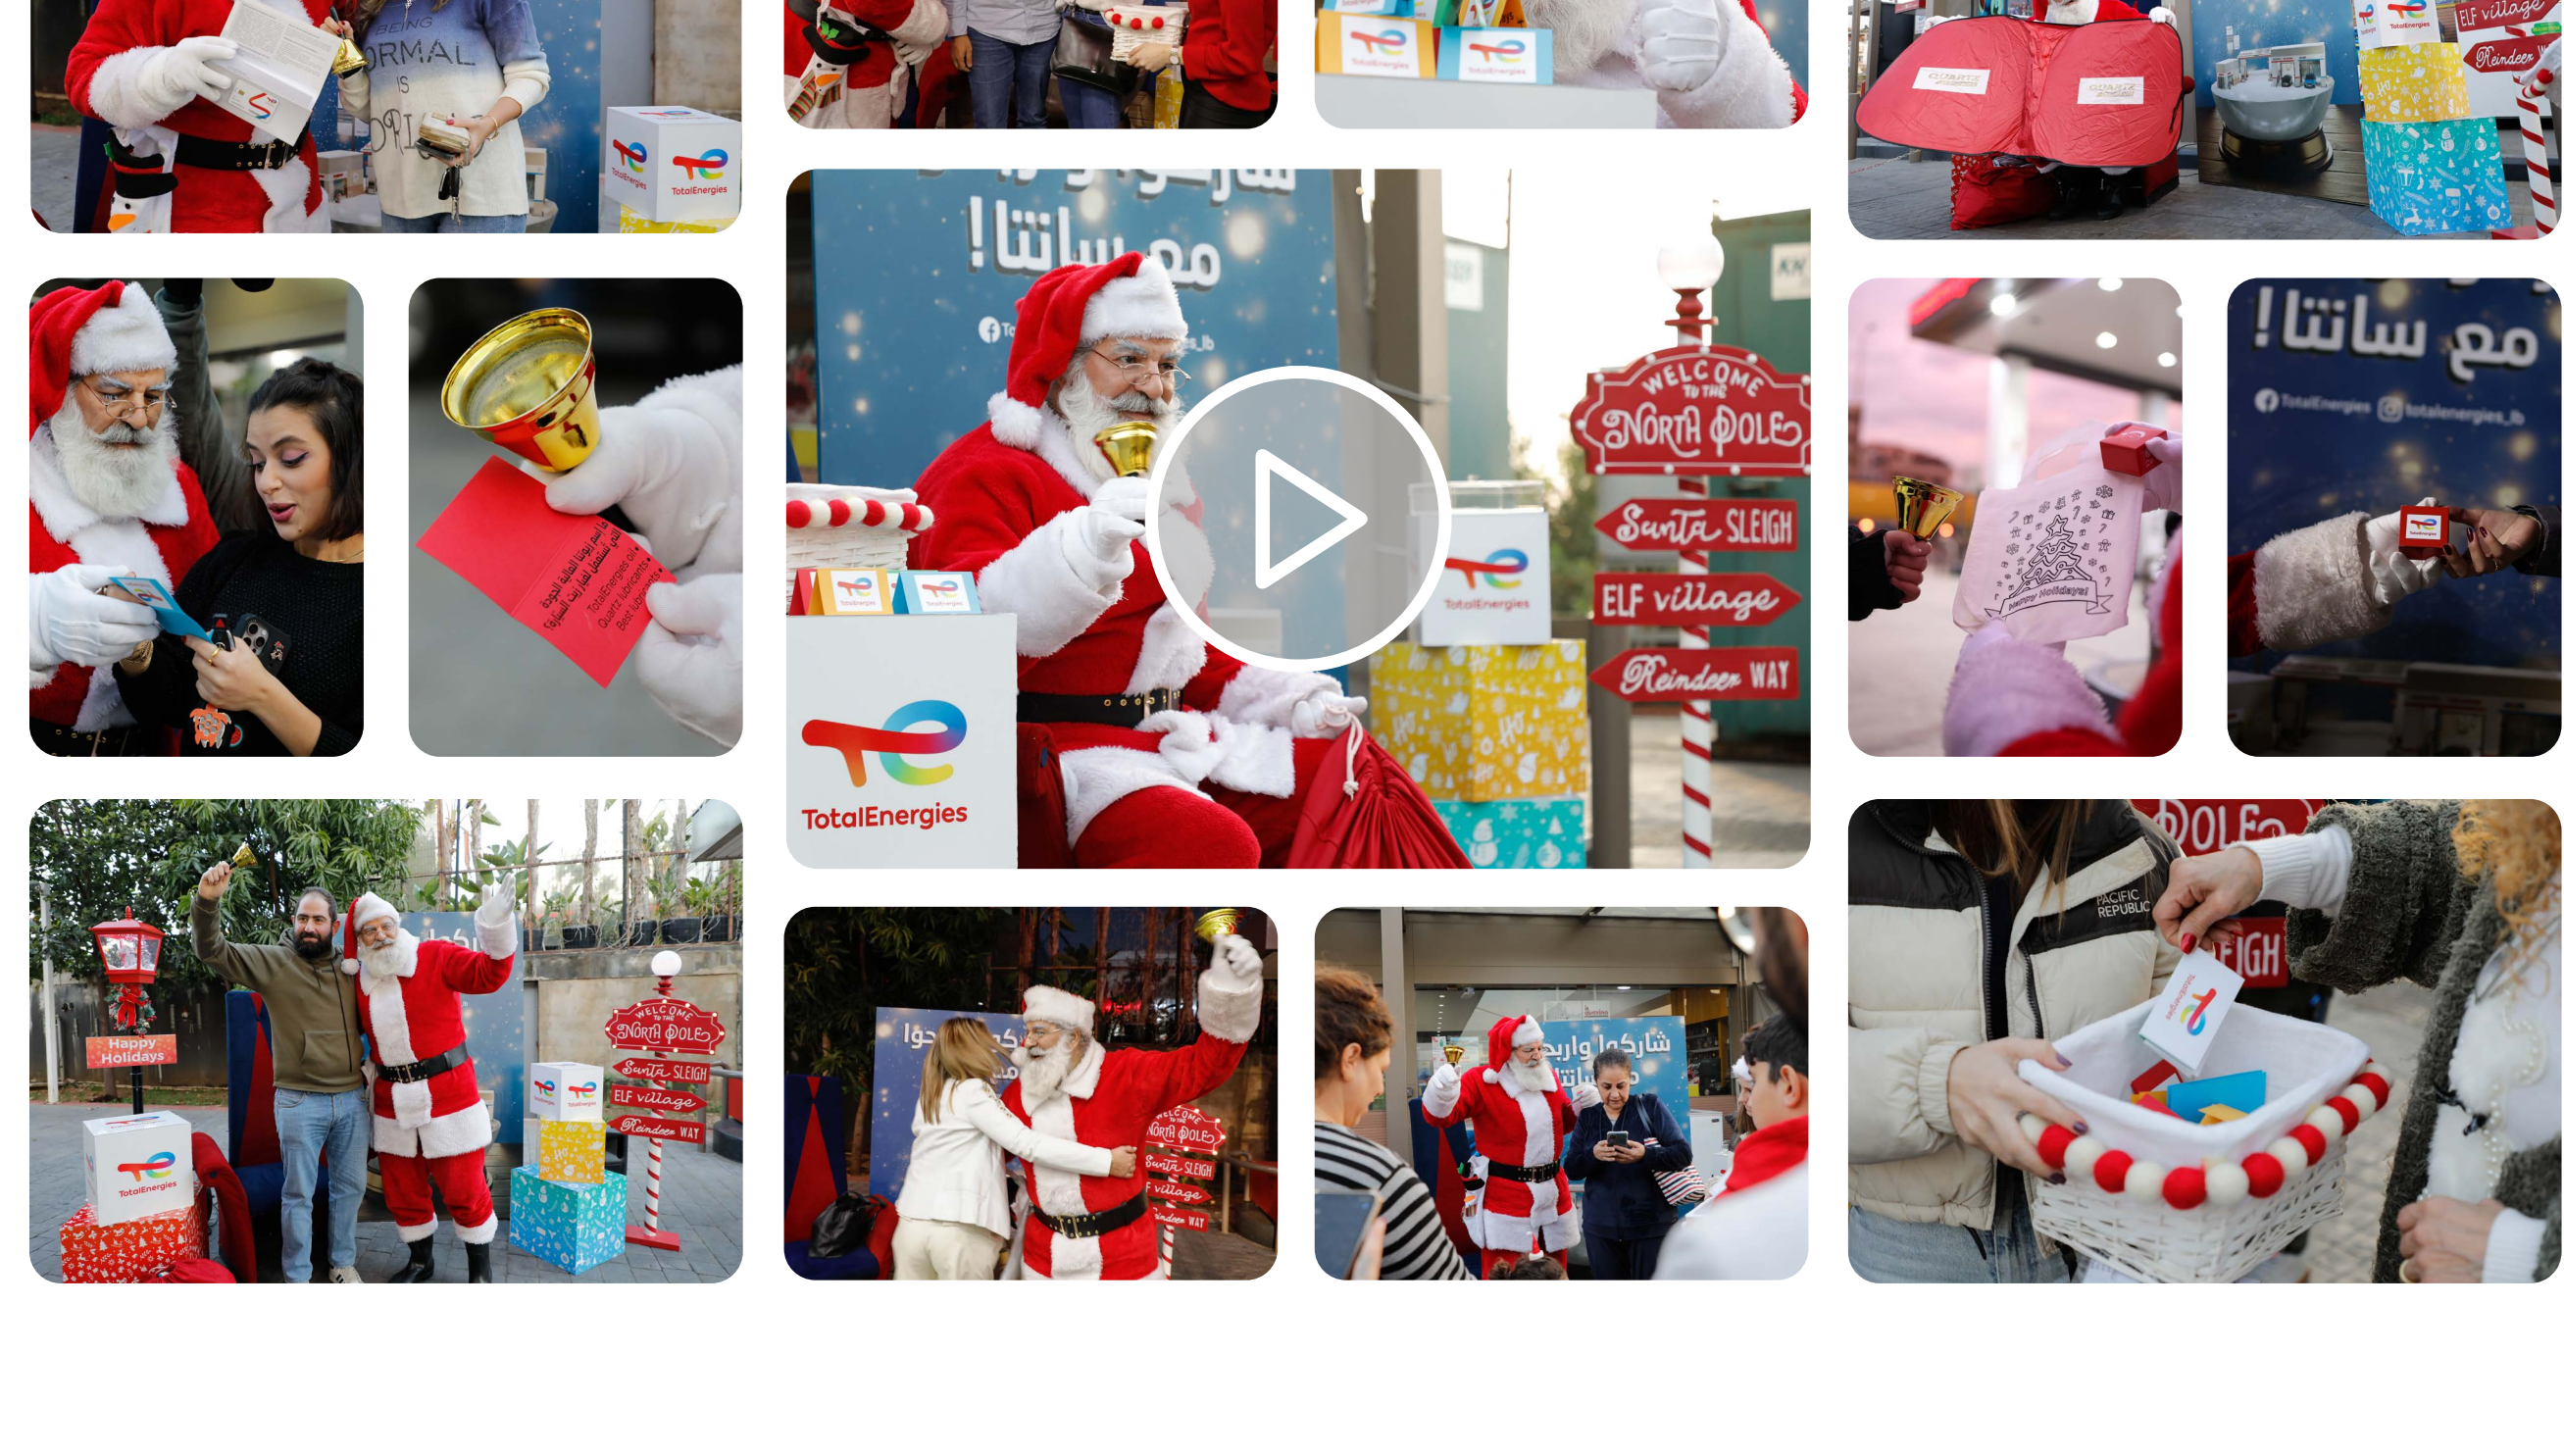

To keep the festivities spirit going, a **gift** is coming your way at our **service stations**. 📺

Stay tuned to know more!

Santa has come to our service stations

Santa Claus dropped by our service stations to spread **joy** and **cheer** among our clients! Little ones and grown-ups had the chance to meet Santa 🎅 in person and receive different **gifts**. Santa Claus didn't forget our social media followers who also had the chance to win prizes. Here's a sneak peek of Santa Claus' visit within our network:

Quartz: the preferred lubricants for Peugeot, Citroën, and KIA

We renewed the agreement of **Quartz Lubricants** supply to SIDIA, NATCO and Centradis, the exclusive agents of **Peugeot**, **Citroën**, and **KIA** cars in Lebanon.

On 11 December 2023, a **signature ceremony** took place to commemorate this renewal that highlights our commitment to excellence and innovation and affirms our determination to provide the best products to our customers and partners in Lebanon.

Planting 200 Leyland Trees at Horsh Beirut

On 7 December 2023, in collaboration with Cedars for Care NGO, we **planted 200 Leyland trees** covering 72 square meters of the **National Park of Beirut, Horsh Beirut**. This initiative underscores our **commitment** to both **society** and the **environment**, as we are participating in creating green spaces accessible to all Beirut citizens at the heart of the city.

Key benefits of this plantation project:

- 🌿 Protects biodiversity
- 🌡️ Regulates the climate
- 💧 Purifies the air
- 🌳 Improves *Horsh Beirut* aesthetic appeal
- 🌳 Every tree will take in around 20 to 50 kg of CO₂ per year

Here's a sneak peek at our trees planting event:

Our youth promoting safer roads

We were glad to receive in our offices the team who won the first prize in the **VIA Contest** in Lebanon, a global initiative launched by TotalEnergies Foundation to raise **awareness** among school students on **pedestrian safe mobility** for the year 2023. During the semi-final and final events held online, the students from the school *Notre Dame des Anges, Badaro*, presented the creative direction they used to draw the poster that represented their **awareness message** on pedestrian road safety.

Unleashing the power of innovation at our INNO Day

On 28 November 2023, we celebrated **Innovation Day**, INNO Day, at Beirut Digital District. Organized around the theme of **Artificial Intelligence (AI)**, all employees actively participated in a series of informative and engaging **workshops** conducted by external experts from CodeBrave NGO.

ISO certified

In a testament to our commitment to **quality management** and **environmental responsibility**, we recently underwent a surveillance **ISO audit** conducted by AFNOR.

This audit encompassed the company various sites, offices, and warehouses, evaluating our adherence to the **ISO 9001** and **ISO 14001** standards.

TotalEnergies first wind farm in the world

Offshore wind power is one of TotalEnergies pillars of the **energy transition**. We bring you this video to learn more about this **renewable energy source** and how it works at a site like *Seagreen*, TotalEnergies first wind farm in the world.

With 114 turbines in operation, the project aims at providing enough renewable energy to power around 1.6 million homes equal to two-thirds of all Scottish households. Watch the video to know more:
